- Open-Source Data Aggregation
- Multi-source Monitoring
- Advanced Search & Filtering
- Keyword & Entity Tracking
- Social Media Intelligence (Public Sources Only)
- Report Generation (PDF/Excel/CSV)
- Role-Based Access Control
- Audit Logs & Activity Tracking
- Dashboard & Analytics Visualization
- Data Export & Archival

## 4. Technical Specifications

Parameter	Specification
Deployment Type:	Web-based / On-Premise
Architecture:	Multi-tier
Backend:	Python
Database:	PostgreSQL
OS Compatibility:	Windows Server / Linux
Browser Support:	Chrome, Edge, Firefox
API Support:	REST API Enabled
Security:	SSL Encryption, Role-based access
Authentication:	Username/Password

---

## 5. Compliance & Security

- Data sourced only from publicly available platforms
  - No unauthorized data intrusion
  - Secure data storage
  - Access control mechanism
  - Audit trail enabled
- 

## 6. OEM Details

### Manufacturer:

Apt Software Avenues Pvt Ltd  
Unit G302, City Centre, Block DC, Sec I, Salt Lake City, Kolkata 700064, WB, Bharat  
West Bengal, India

Registered OEM on GeM  
Country of Origin: India
