

## Tiger OSINT

**Product Name:** Tiger OSINT – Software For Forensic Data Mining Through OSINT Architecture  
A Make in India initiative  
(from a MSME Unit - Apt Software Avenues Pvt Ltd)

**Model:** TIGER-OSINT-ENT-V1.0

**Brand:** Tiger OSINT

---

### 1. Product Overview

Tiger OSINT is a AI-based customised web scraping and OSINT software solution, including installation, subscription-based usage, and support. It comes under category of Software For Forensic Data Mining Through OSINT Architecture in GeM. The system enables secure, automated, and customizable intelligence workflows for investigative and analytical use.

---

### 2. Product Category

- Software
- OSINT & Intelligence Analytics Platform
- Web-Based Application / On-Premise Deployment (choose applicable)

---

### 3. Key Functional Features

- Open-Source Data Aggregation
- Multi-source Monitoring
- Advanced Search & Filtering
- Keyword & Entity Tracking
- Social Media Intelligence (Public Sources Only)
- Report Generation (PDF/Excel/CSV)
- Role-Based Access Control
- Audit Logs & Activity Tracking
- Dashboard & Analytics Visualization
- Data Export & Archival

#### 4. Technical Specifications

| Parameter         | Specification                     |
|-------------------|-----------------------------------|
| Deployment Type:  | Web-based / On-Premise            |
| Architecture:     | Multi-tier                        |
| Backend:          | Python                            |
| Database:         | PostgreSQL                        |
| OS Compatibility: | Windows Server / Linux            |
| Browser Support:  | Chrome, Edge, Firefox             |
| API Support:      | REST API Enabled                  |
| Security:         | SSL Encryption, Role-based access |
| Authentication:   | Username/Password                 |

#### 5. Commercial (INR)

| Sl No | Item                       | Description                            | Quantity / Duration | Amount (INR) |
|-------|----------------------------|----------------------------------------|---------------------|--------------|
| 1     | Upfront Installation Cost  | One-time installation and system setup | One-time            | 23,000       |
| 2     | Search Credit Subscription | Yearly cost for 5000 search credits    | 1 Year              | 4,87,000     |

Total Contract Value (TCV): INR **5,10,000.00**

#### 6. License Details

- **License Type:** Enterprise License
- **Validity:** 1 Year
- **User Type:** Multi-user
- **Upgrade Policy:** Included during license period
- **Support:** Email & Remote Support

---

## 7. Compliance & Security

- Data sourced only from publicly available platforms
  - No unauthorized data intrusion
  - Secure data storage
  - Access control mechanism
  - Audit trail enabled
- 

## 8. Installation & Training

- **Installation Support:** Provided
  - **User Training:** Remote session included
  - **Documentation:** User Manual Provided
- 

## 9. Warranty / Support

- **Technical Support:** 12 Months
  - **Response Time:** Within 24–48 hours
  - **Software Updates:** Included
-
